

Rondy

Genius Vase®

The planter that produces water and waters itself

Genius Vase® Pure Water Always !

Rondy

Genius Vase is an innovative planter for flowers and plants, which can **produce the water needed by the plant autonomously**. The system produces water by drawing it from the surrounding air, and maintains it at a constant level.

The system uses **eco-friendly technology** which is a true marriage of machine and living organism. This system allows plant and machine to work together for the well-being of man, by reducing **CO2** in the environment and increasing **oxygen** levels.

Genius Vase is an eco-friendly product which respects the environment and helps to conserve ground water.

Control panel

Genius has simple, intuitive controls .

- ON-OFF button
- Red LED indicates lack of water
- Blue LED indicates water present
- Green LED indicates planter working

Comfortable wheels

Genius has four wheels in the bottom for easy transportation and positioning .

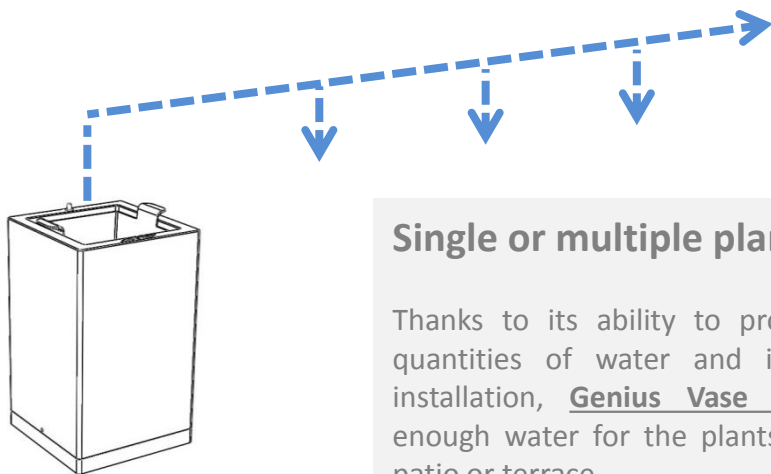

Water level

Genius has additional water level for easy water level control from final user

Genius Vase® Pure Water Always !

Rondy

Single or multiple planters

Thanks to its ability to produce large quantities of water and its ease of installation, **Genius Vase** can supply enough water for the plants in a small patio or terrace.
